THE THIRTY-SEVENTH ANNUAL REPORT

—OF—

ST. LUKE'S HOSPITAL, NEW YORK.

—FOR THE—

YEAR ENDING ST. LUKE'S DAY, OCTOBER 18, 1895.

NEW YORK:
JAMES POTT & COMPANY,
114 FIFTH AVENUE.

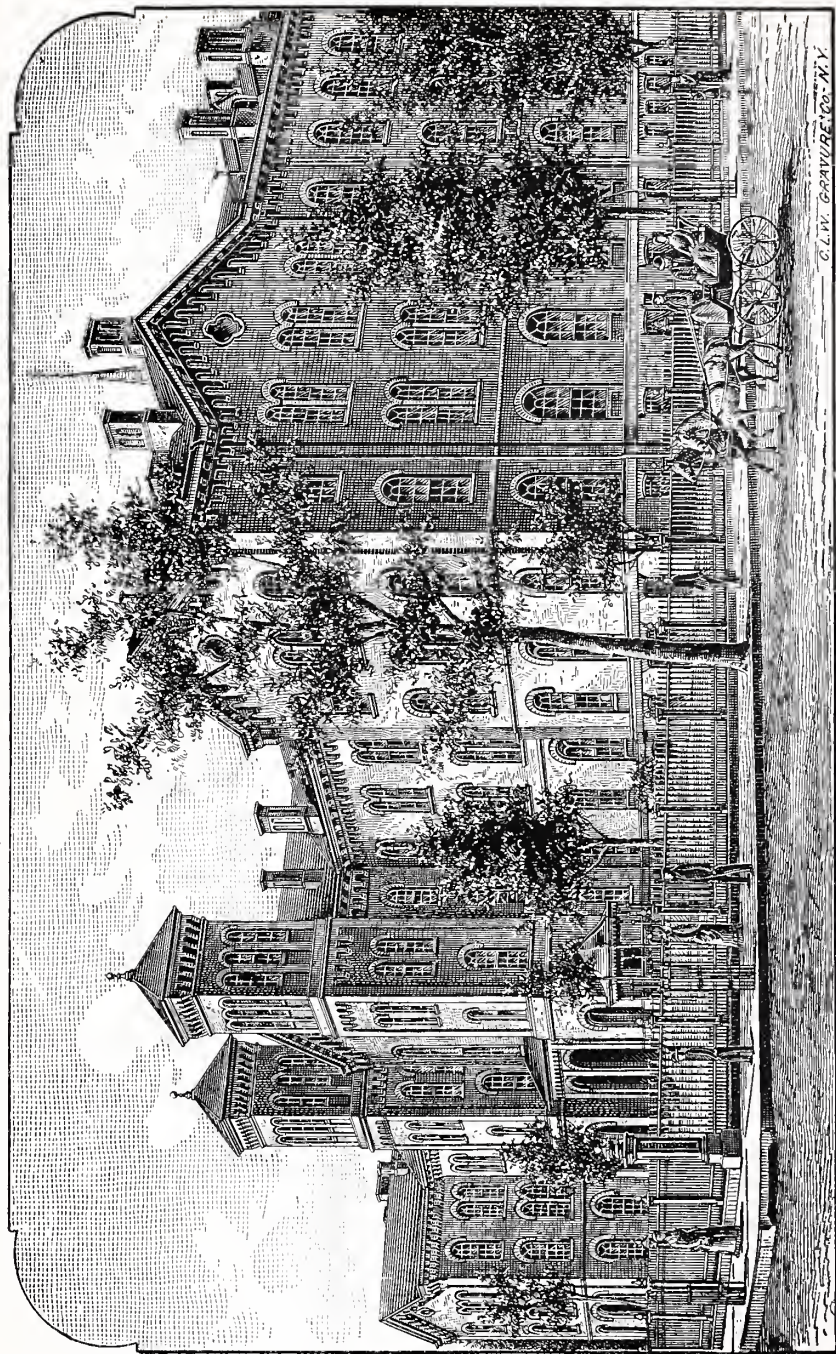

Ⓞ Lord Jesus Christ, in whose name and to whose honor this Hospital was first built as a House of healing both in body and soul for Thy suffering children, we thank Thee for its prosperity and growth, and for the friends Thou hast raised up in succeeding generations both to work within its walls and to give of their substance toward its support.

We pray Thee to look with favor upon the work of erecting new hospital buildings for the improvement and enlargement of this charity. Without Thee, no purposes of good can be accomplished. Give a right judgment in all things to those who are directing the undertaking. Mercifully protect from harm the workmen engaged thereon, and, in Thine own good time, bring their labor to a successful issue, to the honor of Thy holy Name, to whom, with the Father and the Holy Ghost, be all praise and glory forevermore. Amen.

THE THIRTY-SEVENTH ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF

ST. LUKE'S HOSPITAL, NEW YORK,

FOR THE

YEAR ENDING ST. LUKE'S DAY, OCTOBER 18, 1895.

At the time the last Annual Report was presented the Managers expected, before the end of the present fiscal year, to have transferred their work for patients into the new Hospital, but unforeseen delays have prevented the realization of this hope. The Building Committee are, however, doing all that is possible to advance the work on the new buildings, and they trust within a few months that these buildings will be ready for occupancy.

The unusually large deficit in the general expenses of the year is due to two causes:

1st. The large reduction of receipts from paying patients, owing to the closing of the private room service during a portion of the year.

2d. To smaller receipts of interest because of the temporary employment of some of the income-producing capital in the building operations. The other receipts of the Hospital have been about the same as in the previous year.

During the present fiscal year the following sums have been received for the Endowment Fund :

Four beds endowed in perpetuity, pursuant to an arrangement with the House of Rest for Consumptives, June 1, 1895, to be known respectively as beds Nos. 44, 45, 46, 47, received from E. L. Tiemann, Treasurer. Bed No. 44 to be known and designated as "The Thomas McClure Peters Bed"	\$20,000 00
One bed endowed in perpetuity by bequest of Ellen Woodward, in memory of her mother, Jane Greenwood Daniels.	5,000 00
One bed endowed in perpetuity in the Children's Ward by Mr. and Mrs. George H. Byrd, in memory of their son, George Harrison Byrd, to be known as "Georgie's Bed"	3,000 00
One bed endowed in perpetuity by Mrs. S. M. Stevenson in memory of her husband, David Stevenson.	5,000 00
One bed endowed in perpetuity by Mrs. Frank Spencer Witherbee in memory of her mother, Mary Rhinelanders Stewart. .	5,000 00
From the Executors of the estate of Percy R. Pyne, Legacy. .	20,000 00
From the Executors of the estate of the Rev. John Blake, in part payment of bequest of \$3,000 for the endowment of a bed in perpetuity in the Children's Ward.	2,700 00
From the Executors of the estate of M. Louise Comstock, additional payment on account of one-sixth share of residuary estate from reverted trust funds to Emily A. Wood and William Lockwood.	858 85

Inquiry having been made of the Board of Managers as to the sum they would accept for the permanent endowment of a room for private patients in the new Hospital, \$20,000 has been designated as the sum necessary for this purpose.

During the year two of the Managers, Mr. Percy R. Pyne and Mr. Hugh N. Camp, and the President of the Medical Board, Dr. George A. Peters, have died. The memorial resolutions adopted will be found appended to this report. Mr. Henry B. Renwick, also a member of the Board of Managers from October 18, 1879, to October 18, 1893, at which time he resigned on account of failing health, died January 27, 1895. By each of these gentlemen the name and work of the Hospital was cherished, and they all have left a record of long and faithful service in the advancement of its usefulness to the community.

GEORGE MACCULLOCH MILLER,
President.

J. PIERPONT MORGAN, JR.,
Secretary.

In Memoriam.

THE Managers of St. Luke's Hospital record the death, on February 14, 1895, of their honored friend and associate,

PERCY R. PYNE.

Mr. Pyne became a Manager of this Hospital January 30, 1860. He served continuously and faithfully as a Trustee for over thirty-five years. Since October 27, 1879, he has filled the office of First Vice-President.

He was a man of quick intelligence, of good business judgment, of untiring diligence and of generous impulses. He manifested his interest in the welfare of this institution in many practical ways. He was one of the largest annual contributors to this charity. The library of the Hospital, which bears his name, now includes about 2,000 volumes, mostly his gift. It will bear continual witness to his thoughtful consideration for the comfort and well-being of the patients during their days of convalescence. He took a lively interest in the present prosperity of the Hospital, and in the plans for its future development. The Managers place upon their minutes this tribute of their affectionate remembrance of Mr. Pyne, and of sincere sympathy with his family in their bereavement.

IN MEMORIAM.

THE Managers of St. Luke's Hospital record the death, on September 21, 1895, of their esteemed friend and associate,

HUGH N. CAMP.

Mr. Camp became a member of this Board January 26, 1863, and served continuously for nearly thirty-three years. At the time of his death he was a member of three important Committees of this Corporation, the various duties of which he performed with punctilious faithfulness. He was a man

abundantly resourceful, of quick intelligence, and sound judgment. Blessed with a sunny disposition and a hopeful temperament, nothing, which to him seemed worthy to be done, appeared impossible of accomplishment. In this, and kindred works of charity with which he was connected, his interest was fully shown by the cheerful readiness with which he assumed self-sacrificing duties in their behalf, and by the whole-hearted zeal with which he gave his best efforts for their advancement.

In recording their own loss, the Managers desire to express their sincere sympathy with the family of Mr. Camp in their great bereavement.

IN MEMORIAM.

On December 6, 1894, died, at a ripe old age, and after a life of active usefulness, the President of the Medical Board,

GEORGE A. PETERS, M.D.

Dr. Peters was a member of the first Medical Board, organized March 1, 1859, for service in St. Luke's Hospital, and has been actively connected with it ever since. He served for over twenty years as Attending Surgeon, and for fifteen years as Consulting Surgeon, giving thus freely his conscientious service and best skill for over thirty-five years to the patients of this Hospital. Others gave money for the support and development of this charity, he gave the service of his life; and none who were associated with Dr. Peters in his work, will ever say that his gratuitous service to the very poorest of the patients of this institution was less painstaking or conscientious than that rendered to the wealthiest patients in his private practice. His was a unique personality, of strong convictions, of steady purpose, of practical sense, of ready wit, of intense reality.

The Managers of St. Luke's Hospital record upon their minutes, and order published, this tribute of their appreciation of his character, and of gratitude for his service.

CENTURY FUND.

The "Century Fund" of St. Luke's was inaugurated by Dr. Muhlenberg as a yearly subscription by 100 persons of \$100 each toward supplying the difference between the annual expenses of the Hospital and its income. For a time this Century Fund was maintained at its full number and amount, but through the death of original subscribers, and from an impression which is abroad that St. Luke's income from endowment having increased, there is not the same need for these contributions, the number of subscribers has gradually diminished. The income, however, has not grown as fast as the expenses; partly because of the steady increase in the proportion of patients with acute diseases and of applicants for free treatment, partly because the Hospital is kept more continuously full.

The work of the Hospital for the past year is found on page 30. The relation of the receipts to the expenditures is found in the Treasurer's Report, page 13.

The number of subscribers last year was 80. It is the hope of the Managers that the number will reach 100 this year.

The Century Roll will be printed when complete, and a copy sent to each subscriber.

A subscription for the current year carries with it no obligation for the next. Subscriptions should be sent to the Treasurer.

REPORT OF THE EXECUTIVE COMMITTEE

ON THE

TRAINING SCHOOL FOR NURSES.

The work of the Training School has gone steadily on during the past year, notwithstanding the fact that the service of the Hospital has been reduced one-half. This has been accomplished by securing to the pupils, whom it was not necessary to keep in the Hospital for its present work, the educational experience promised them by this institution, in other places. Thus, besides the four pupils regularly sent to the Sloane Maternity Hospital, six others have been sent to the New York Infant Asylum for training in Obstetrical Nursing, three are sent to St. Johnland to care for the sick children from the Hospital sent there, and four or five to Dr. Bull's private hospital in East 33d Street, for surgical training.

The weekly class instruction and lecture course is continued as heretofore at the Hospital.

The above arrangement will facilitate the drawing together of our scattered staff when they are needed for service in the new Hospital.

The increased facilities which the Hospital will have in its new buildings for the training of nurses, warranted the Management in increasing the term of training from two to three years. All pupils recently admitted have been received for the full three years' course. The educational advantages which the Hospital offers its pupils will, it is believed, be fully equal to those offered by any Training School of the country.

On September 1st Miss Florence C. Cottle and Miss Annie E. Jarvis resigned the position of Supervising Nurses, to take charge of a hospital for private patients in Elmira, N. Y.

Mrs. Lily W. Quintard, who, for five and a half years, has successfully conducted the Connecticut Training School for Nurses in the New Haven Hospital, has been appointed Directress of Nurses in St.

Luke's, and will soon enter on her duties here. In the interim Miss Charlotte Edythe Thompson, a recent graduate of St. Luke's Training School, has been appointed Supervising Nurse, and is conducting the work satisfactorily.

On the 18th of October there were 38 pupils, and 2 probationers in this School, and the names of 24 candidates were on "the waiting list," awaiting call for duty.

The number of applications for admission to the privileges of the course is increasing to a degree which shows in what high esteem the advantages offered by this School are held.

The School would be much helped by an enlargement of the Training School library, by a manikin, charts, and other appliances for the illustration of the class teaching. It is hoped that some of the friends of the Hospital, who are especially interested in the educational side of its work, will provide these articles for the opening of the School in the new Hospital.

The thanks of this Committee are due, and are hereby given, to the doctors and others who, without pecuniary compensation, have prepared the following valuable course of lectures for the pupils of the Training School:

DR. ALBERT A. DAVIS - - - - SEPTEMBER 12, 19.

A copy of Dr. Ball's lecture on "Duties and Conduct of Nurses in Private Nursing" will be given to each graduate.

The number of graduates from the School the past year has been twenty, all of whom have found immediate employment, and the record of whose service in private or institutional work has been creditable. A register for the graduates of this School is kept, and the patrons of this institution, and others in need of the services of trained nurses, can be accommodated on application to the Directress of Nurses at this Hospital.

PASTOR AND SUPERINTENDENT'S REPORT.

As a result of the necessary abridgment of the work this year 14,998 days less than last of hospital care have been given to patients, and the per capita cost has been proportionately increased.

The growing complexity of the service of modern hospitals has made it desirable that the cost of different departments should be stated in the annual report.

A conference of the Superintendents of several of the larger private hospitals of the country was held the past year, at which was discussed the desirability of a uniform method of presenting to the public the statistics of the several hospitals, that there might be a more intelligent comparison.

The principles agreed on are found incorporated in this report, page 37.

Notwithstanding the destruction of the western portion of the Hospital building we were able to preserve the Chapel, and the religious services of the house have been regularly maintained as heretofore. The statistics are as follows :

Baptized	14
Confirmed.....	22
Marriages	3
Funerals.....	89

Admitted to the Guild of St. Barnabas for Nurses.	17

The Chaplain has continued his weekly Sunday evening services in behalf of the Guild of St. Barnabas at the New York City Training School for Nurses on Blackwell's Island, and the Pastor and Superintendent has given a monthly course of instruction to the nurses of the St. Luke's Hospital Training School.

CLASSIFICATION, AND COST OF SERVICE.

The superintendents of some of the larger city hospitals, *i. e.*, the Roosevelt, the Presbyterian, and St. Luke's, have (with the knowledge and hearty approval of individual members of the governing boards of the several hospitals) made separate investigations, and have agreed on the following basis for the annual reports of their respective institutions for the current year, for purposes of comparison:

1st. Patients in private rooms are estimated to cost the hospitals represented an average expenditure of \$3 each per day for their support.

2d. Living expenses of each inmate, other than patients, shall be added to the salary or wages paid.

In the case of this Hospital these living expenses are estimated for the current year at 50 cents each per day.

SERVICE.

1733 days' Hospital treatment given patients in private rooms at \$3 per day.....	\$5,379 00
59,290 days' Hospital treatment given ward patients..	95,630 56
Total house expenses.....	\$101,009 56

To determine cost of ward patients per day, per capita, divide \$95,630.56 by 59,290 days of Hospital treatment given such patients the current year. This shows that each ward patient cost the Hospital \$1.61½ per day, in actual expenditure, while the price charged paying patients in the wards is but \$7 per week.

The Hospital received from private patients the past year.....	\$7,187 80
The private patients cost.....	5,379 00

Leaving profit on this service for current year..... \$1,808 80

On the basis of \$1 per day, the amount received for ward patients who pay the full rate charged, 3373 full days of Hospital service were given during the current year to patients who paid this rate in the wards.

The excess of cost over amount charged these patients, *i. e.*, 61½ cents each per day, shows that the Hospital contributed toward the support of these paying patients the current year \$2074.40.

The question of increasing the charge for ward patients, to make it more nearly commensurate with the expenditure in their behalf,

has already received the attention of the managers of some hospitals in other cities, and in one case at least the rate charged for ward patients has been increased from \$7 to \$10 per week for adults. It would seem that some united movement on the part of the New York hospitals to the same end is called for.

The first impression received by the ordinary reader of the above report is doubtless surprise at the fact that the number of employees nearly, if not quite, equals the number of patients treated in the beds of the institution at any one time. This is rendered necessary in modern hospitals by the following facts :

1st. The patients generally are helpless, and have to be cared for by night as well as by day. At least two, and sometimes three reliefs of workers have to be provided within the twenty-four hours.

2d. The demands of modern surgery for thorough asepsis result not only in improvement in statistics of operations, but also in a great multiplication of the details of surgical work and in a large increase of expenditure for supplies.

3d. The pathological investigations necessary for the scientific diagnosis and treatment of each patient greatly increase the work and the cost of treatment, but the results gained add to the general knowledge of the nature and cure of disease, and incidentally benefit not only the patients but the general public.

The cost of the *educational* side of the Hospital work is clearly seen, but its commensurate advantages in training and graduating each year skilled workers, both doctors and nurses, whose lives are given to the relief of human suffering, cannot be too highly estimated.

It is the faithful, plodding work done in the laboratory, in the operating room, and by the bedside of patients in the Hospitals which produce the wonderful improvement manifest in general medical practice. This work is steadily, quietly, and often unselfishly done in these institutions, out of the sight of the general public, but its results are seen not only in hospital statistics, but in nearly every home.

When a discerning public shall realize this fact, we believe that special provision will be abundantly made for the Pathological Department and for the best possible teaching in the Training School for Nurses, for it is to the achievements of these two departments that the modern Hospital is most deeply indebted.

GEORGE S. BAKER,
Pastor and Superintendent.

PROSPECTUS OF THE ST. LUKE'S HOSPITAL TRAINING SCHOOL FOR NURSES.

The Board of Managers of St. Luke's Hospital, New York, are prepared to give a three years' course of training to women desirous of becoming professional nurses.

As St. Luke's Hospital is distinctively a Church Hospital, and managed by members of the Protestant Episcopal Church, it is essential that all of its workers should be in sympathy with its Christian character.

This announcement is made that there may be no misunderstanding on the part of applicants for the benefits of the Training School for Nurses, as preference will be given to those who are in full accord with the rules, methods, and work established in this Hospital.

Those wishing to receive the course of instruction offered here must apply to the Pastor and Superintendent of the Hospital.

The following information is furnished to candidates desiring admission to the Training School.

Candidates must be from twenty-three to thirty-five years of age. They must be in sound health, and must send, with their application, a certificate from a physician testifying to this fact; also certificates from one or more responsible persons as to their character. These certificates may be addressed "To whom it may concern," but the original certificates (and not copies) must be forwarded, with a letter in the handwriting of the applicant.

A limited number only can be received. The rejection, therefore, of a candidate is no reflection upon the individual's character, neither does it prove her to be disqualified for the work of nursing in other places. The reasons for rejection are not given, neither are letters addressed personally to the authorities of the School returned.

Candidates for probation are not received in classes, but individually, as the work of the Hospital requires. Classes are formed at the convenience of the School.

The names of accepted candidates are usually placed in order on a "waiting list," to be called for duty as the needs of the Hospital require. When called, they are expected to report promptly and to bring with them the

means of returning to their homes, should they not successfully pass the probationary term.

Any change of plan or of address on the part of a candidate, whose name is on the waiting list, should be immediately reported to the authorities of the School.

When probationers come to the Hospital, they should bring with them the following articles: Boots fitted to support the arch, and at least one inch longer than the foot; three dresses (gingham or calico); six large white aprons (bleached cotton) plainly made; a good supply of plain underclothing; a bag for soiled clothes; one pair of scissors, and a pin ball. Each article of clothing must be indelibly marked with the owner's name.

If the teeth are out of order they must receive attention before coming for the probationary term.

Probationers are boarded, lodged, and have their laundry work done at the Hospital. They receive no other compensation. Twenty-one pieces are allowed for the laundry each week.

Each probationer who passes successfully through two months of trial will then be admitted to the School, and will go on at once with the prescribed course of training.

Pupil nurses at the time of admission to the School are required to sign a written agreement to remain in the School for three years, and to conform to the rules.

The Pastor and Superintendent of the Hospital has charge of the Training School, assisted by the Directress of Nurses, and the nurses are subject to the rules of the Institution. Their fitness for the work and the propriety of retaining or dismissing them at the end of the months of trial are determined by the Pastor and Superintendent, who can in like manner dismiss them at any time in case of misconduct or inefficiency. The nurses reside in the Hospital and serve as assistants in its wards.

All nurses are required to be sober, honest, truthful, trustworthy, punctual, quiet, orderly, cleanly, neat, patient, kind, cheerful, and obedient to rules.

Hours of duty are from 6:45 A.M. to 8 P.M. Leisure hours: One afternoon, 2 to 8 P.M.; one day, two hours; four days, one hour; Sunday, four hours.

Pupils are required to wear the Training School uniform while on duty after they join the School. Material for dresses will be sold at cost price; caps are furnished free of charge.

Three weeks' vacation is allowed each year. If pupils are sick they are cared for in the wards of the Hospital, but the monthly allowance is stopped. They may be called upon for day or night duty, or for care of private patients in the Hospital, according to the requirements of the work.

The instruction is given mainly by the Directress of Nurses and by the head nurses. Lectures by physicians and surgeons, and recitations, take

place at stated periods. Examinations by a Committee of the Medical Board, chiefly upon practical points, are held about January 1st, April 1st, and July 1st, of each year.

The religious services of the Hospital are according to the rites of the Protestant Episcopal Church, and the pupils of the School are expected to attend these services regularly. A special course of religious instruction is given each term by the Pastor and Superintendent.

COURSE OF TRAINING.

The instruction includes—

1. The dressing of blisters and burns, applying fomentations, poultices, etc.
2. Cupping, leeching, and subsequent treatment.
3. The administering of enemata and use of female catheter.
4. Management of helpless patients; moving, changing bed and body-linen, giving baths, preventing and dressing bed-sores, and feeding.
5. Antiseptic treatment of wounds.
6. Bandaging, making bandages, covering splints, etc.
7. Cooking, preparing, and serving appropriate food and delicacies for the sick.
8. Massage.
9. Emergencies and how to meet them.

Instruction is given in ventilation and in the proper care of sick rooms and utensils; also in accurate observation of the sick in regard to the state of the excretions, expectorations, pulse, temperature, respiration, action of the skin, eruptions, sleep, mental condition, condition of wounds, appetite, effect of diet, stimulants, medicines, and management of convalescents.

Opportunity is given for training in obstetrical nursing at the "Sloane Maternity Hospital."

Lessons in massage are given by a competent masseuse.

The pupils are employed as assistant nurses in the wards of the Hospital, and they receive ten dollars (\$10) per month during their whole course for uniform and personal expenses. It is considered that the education given during the course is a full equivalent for services rendered.

When the full term of three years is completed, and the pupils are regarded as thoroughly qualified, they receive, if their conduct and examinations have been satisfactory, diplomas certifying to that fact, after which they are at liberty to choose their own field of labor.

The right is reserved by the Pastor and Superintendent to terminate the connection of any nurse or pupil with the School for reasons which may be deemed sufficient.

Each graduate is expected to notify the Pastor and Superintendent, before the 1st of October yearly, of her residence, that her name and occupation may be correctly stated in the list of graduates, and that she may receive a copy of the annual report of the Hospital.

Each graduate registered for private nursing should notify the Directress of Nurses of each change in her home address, as well as the name and address of each patient she engages to nurse, with the name and address of the physician in attendance. When she renews her registry, she should state whether the last case she nursed was of a contagious nature, and what means she has taken to obviate danger to herself and others.

Each nurse whose name stands on the register as disengaged will be expected to pay all charges incurred in securing her work, and to report promptly to each patient sent her by the register.

The name of no nurse will be retained on the register, the record of whose work has not been satisfactory.

The usual charge for nurses from this school is \$3 per day, except for special cases, when \$25 per week may be charged. No registered nurse is permitted to charge more.

ADMISSION OF PATIENTS.

DISEASES TREATED.

All kinds of *acute, curable, and non-contagious* diseases treated in the wards. Sufferers with chronic and incurable complaints received and retained at discretion, but (with the exception of the "House of Rest for Consumptives" patients) not permanently provided for. None are received as patients who, from the nature of their ailment, would occasion discomfort to their neighbors. The following are inadmissible: Sufferers from contagious disease, cancers of an incurable and offensive nature, epilepsy, opium habit, delirium-tremens, insanity, and venereal disease.

MODE OF APPLYING.

Applicants received in person daily (except Sunday) from 10 A.M. to 5 P.M. Cases of sudden injury, requiring immediate care, received at any hour, and, if need be, without charge.

Applicants *from the city*, too sick to apply in person, will be examined by a physician at their residences.

Applications from *out of the city* should be made in writing to the Pastor and Superintendent. Such communication should enclose a written certificate from a regular physician as to applicant's disease, present condition and symptoms. It should state whether bed in general ward or private room is desired. If latter, at what price and on which of hereinafter-named conditions.

Applicants from out of the city requiring *medical* treatment not ordinarily received.

Applicants requiring *surgical operations* not obtainable at home admitted from any part of the country.

RATES OF BOARD.

GENERAL WARDS.

Board of patients in general wards per week is \$7 for adults and \$4 for children (between ages of two and twelve), payable each four weeks in advance. Unexpended portion of above refunded at same rate on patient's discharge.

Applicants applying for **FREE** treatment in whole or in part must be suitably certified as unable to pay Hospital rates, and as worthy objects of charity.

PRIVATE ROOMS.

The charitable work of the Hospital is done in the general wards. The income from board and nursing of private patients is applied toward making up deficiency of revenue to support increasing charity work of general wards.

PRICES OF PRIVATE ROOMS.

Single Rooms, \$20, \$35, \$40 and \$60 per week.

Hospital charges in private rooms invariably must be paid each two weeks in advance, and unexpended balance will be refunded at same rate on patient's discharge.

The Superintendent is authorized to make special terms for patients in private rooms requiring extra nursing, and requiring expensive medical and surgical supplies for their treatment.

House Physicians and Surgeons at all times within call, at discretion of nurse.

Laundry work for private patients done at their own expense outside the Hospital.

Diet regulated by physicians' orders, and meals served at regular hours.

AS TO FEES.

No Officer, Nurse, or Servant is allowed to receive any fee or gift from a patient.

The Physicians and Surgeons give their professional services without salary to the Hospital, under the following terms and conditions :

1. They will not receive professional fees under any circumstances from any patient occupying a bed in the Wards of the Hospital ; neither will they expect or receive such fees from any patient occupying a private room, provided that, in the opinion of the Hospital authorities, ability does not exist on the part of such patient to pay for the services of the Attending Physician or Surgeon, besides paying first the Hospital charges for board and nursing.

2. The Attending and Consulting Physicians and Surgeons are expected to make definite private arrangements as to their professional fees with those patients whom they recommend to the Hospital authorities for their private treatment *before* such patients are sent to the Hospital.

3. The Hospital authorities protect their own Staff from a misuse of their charitable services by recommending any applicant who applies directly to the Hospital for the use of a private room to any member of the Attending or Consulting Staff whom they may select that the above arrangements may be made.

4. Copies of these rules may be shown at discretion to applicants for private rooms, that they, before admission, may designate in which of these ways their means allow them to avail themselves of the privileges of the Hospital.

RULES FOR PATIENTS.

All patients admitted to the Hospital will be required to conform to the rules of the house. Patients receiving charity are expected to show a readiness to oblige one another and to assist in such becoming services in the wards as their health enables them to perform, remembering that they have voluntarily come into a household of which the great law is that of mutual kindness and brotherly love.

1. Profane or indecent language, irreverent behavior at the services of religion, the expression of immoral or infidel sentiments, and the like, are offences for which a patient will forfeit his place in the Hospital. There must be perfect silence in the wards during the religious services, and during the doctor's regular professional rounds. Loud talking, reading, or calling across the ward are not allowed at any time.

2. Patients are not allowed to leave the wards to which they respectively belong, except for the corridors attached to their wards, and the Chapel, without permission. When desiring to go beyond the bounds of the Hospital, patients must obtain a pass and leave it at the Office. Monday is the regular "pass day." Passes are not granted on other days except for special causes, when they must be indorsed "approved" by the Pastor and Superintendent.

3. All wines, spirituous liquors, medicines, fruits, food, or delicacies of any kind, excepting those prescribed and furnished by the Hospital, or furnished by express permission of the Hospital authorities, are strictly prohibited. Any patient receiving such articles irregularly through his friends will make himself liable to discharge. Only such books, pamphlets, newspapers and packages are allowed in the wards as are approved by the Pastor and Superintendent.

4. No patient may purchase, or procure any member of the household to purchase for him, any articles whatsoever without leave to that effect.

5. Patients are expressly forbidden to spit anywhere excepting in their spittoons, or to use chewing tobacco without the permission of the House Physician or Surgeon.

6. Patients must not open or shut any window or register of a ward at their own option.

7. The hour for patients in the wards to retire to their beds is 9 P.M.

8. The Hospital will not be responsible for any property belonging to patients; but there is a safe in the Office where money and valuables may be deposited, for which articles, when so deposited, a receipt will be given.

9. When a patient desires the visit of a clergyman, not in the house, he must signify the same to the Pastor and Superintendent, who may, at his discretion, invite the clergyman, with the understanding that he will confine his visit to the person desiring to see him.

10. No officer, nurse, or servant of the household is allowed to receive any gift or fee from a patient in the Hospital.

REGULATIONS FOR VISITORS.

1. Visitors desirous of seeing the institution will be admitted on Thursdays between ten and twelve, and between three and five o'clock.

2. The friends of patients are admitted to the general wards from ten to twelve o'clock on Tuesdays, Thursdays and Saturdays.

3. Women visitors, unless near relatives, are not admitted into the Men's Wards, nor men visitors into the Women's Wards.

4. All visitors are respectfully requested to leave when the bell rings at the expiration of the visiting hour.

5. The cards of visitors to the private patients will be taken to their rooms, under restrictions imposed by the Attending Doctor, daily (except Sunday), from 10 A.M. to 1 P.M.; from 3 to 5 and from 7 to 8 P.M.; on Sundays from 2 to 3.30 P.M. Such visitors will be expected to leave the rooms of their sick friends during the doctor's visit, and during hours of Divine worship in the Chapel. They are to leave before the doors of the Hospital are closed at 10 P.M.

6. Sunday is not a visiting day in this Hospital. To accommodate the relatives of the patients in the wards who find it impossible to call on the visiting days, those who attend the Chapel services will be allowed, at the conclusion of public worship, to remain in the wards for a short time. These Chapel services are held at 4 P.M.

7. In cases of extreme sickness special passes will be granted to the immediate relatives of the sick patient.

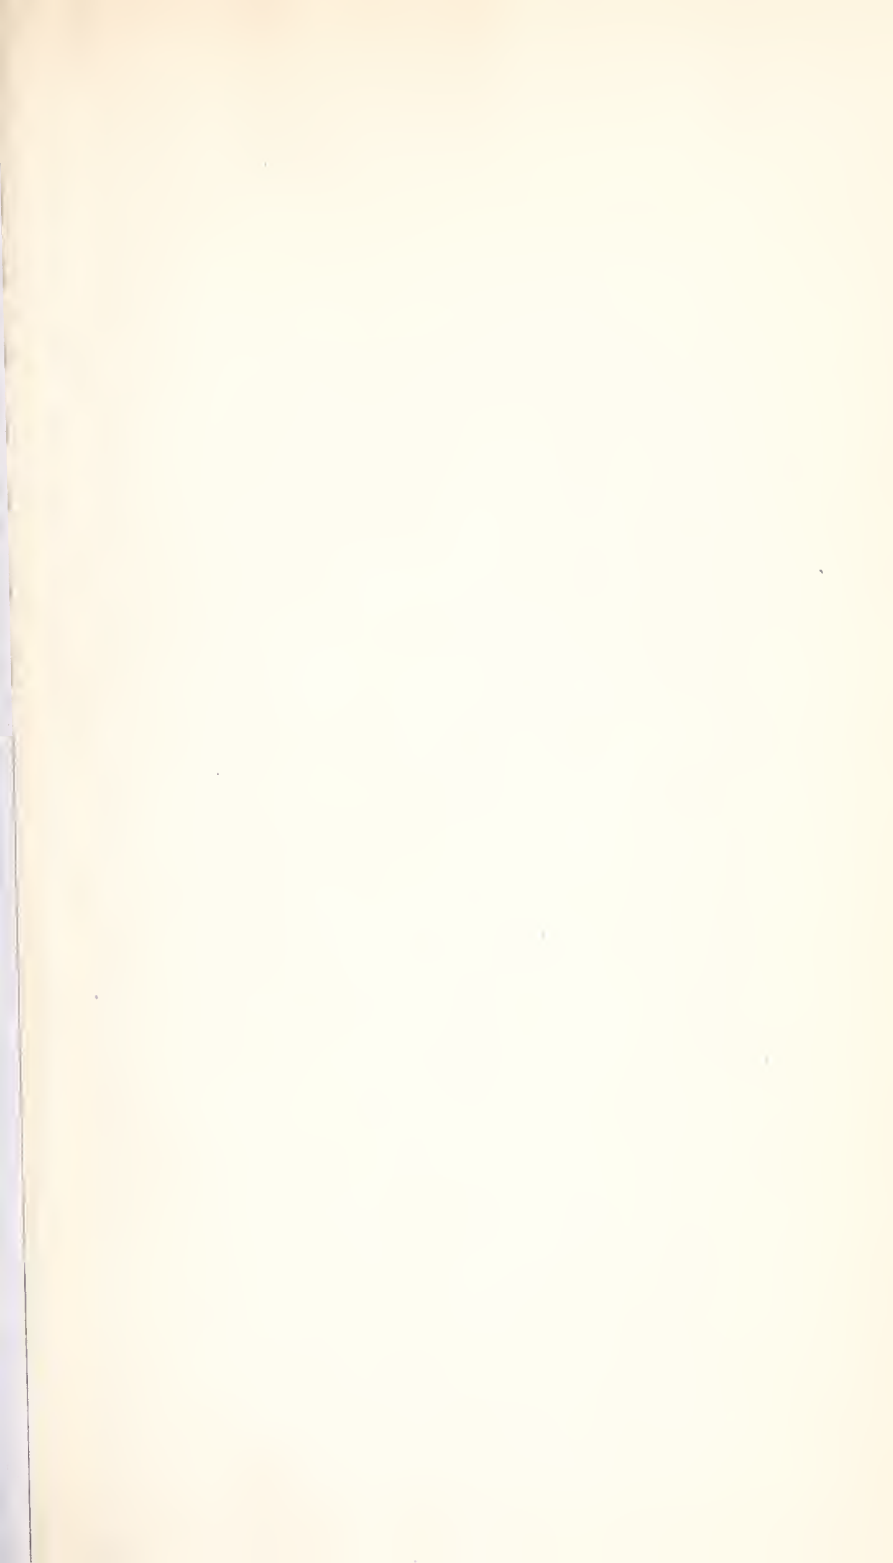

8. No fruit, liquors or delicacies of any kind whatsoever may be taken by the friends of patients into the wards or private rooms. All such articles must be left at the Office, and, if approved by the doctors in charge of the patients for whom the articles are intended, will be delivered.

FORM OF BEQUEST.

I GIVE and bequeath to ST. LUKE'S HOSPITAL, a corporation created in the year 1850, under the laws of the State of New York, or to the Treasurer thereof for the time being, for its corporate purposes, the sum of.....dollars.

FORM OF DEVISE OF REAL ESTATE.

I GIVE and devise to ST. LUKE'S HOSPITAL, a corporation created in the year 1850, under the laws of the State of New York, for its corporate purposes, all that, etc. (Here describe the property.)
